Close shave for 108 as aircraft skids off runway

As many as 152 passengers were yesterday on their way to Delhi aboard Air India Express Flight 1 (412) from Jodhpur when the aircraft skidded after landing near the main runway. The plane's back wheel skidded off the runway in the newly-built runway as the passengers were evacuated through the front doors.

**CMC halts admissions over NET**

**KARNATAKA**

**Article 7**

The Karnataka Medical College (CMC) in Bellary has decided to suspend all admissions to MBBS and super specialization between 2017-2018 as it is unable to fulfill the compulsory minimum number of non-unionized personal after the National Full-time Executive (NET) became effective.

One candidate in MBBS with special courses and one student in MBBS and one candidate were also suspended. The move was in response to the NET scheme, where the government decided that the candidates who are going to the exam must meet the minimum NET score.

The move is seen as a consequence of the previous NET scenario where the government decided that the candidates who are going to the exam must meet the minimum NET score.

**MORE ‘LIKES’ FOR AAP AFTER SOCIAL MEDIA MAKEOVER**

Party’s social media presence now marked by less negativity

**DAMOON SATH**

For a long time, the AAP social media strategy had undergone a steady change. The party’s Facebook page had grown in recent years, with a steady rise in the number of daily posts.

But by the time the AAP was in the New Delhi election to the Delhi Assembly on August 21st, its social media strategy had undergone a sea change. More likes

Recently, for the first time, the AAP's Facebook page posted more likes than any other political party in the country. The likes too, were more than the official Narendra Modi page. Facebook data shared by the AAP show the party's social media page is now more operational.

By the time the AAP was in the New Delhi election to the Delhi Assembly on August 21st, its social media strategy had undergone a sea change.

More likes

Recently, for the first time, the AAP's Facebook page posted more likes than any other political party in the country. The likes too, were more than the official Narendra Modi page. Facebook data shared by the AAP show the party's social media page is now more operational.

One of the first things to change was the Chief Minister Arvind Kejriwal's Twitter handle. The Twitter handle had a lot of followers, but few interactions. The new Twitter handle now has more followers and more interactions.

Jharsuguda airport to be operational soon

Work on airstrips at Jeyore, Uikela to be expedited

STAFF REPORTER

Regional air connectivity in Odisha is set to get a boost with the Jharsuguda airport likely to be made operational by next month.

The government had decided to develop the Jharsuguda airstrip into a full-fledged airport by April 2024.

Financial support

The government will provide both manpower and financial support to make the airstrip visible during the initial period.

Preparations reviewed

A high-level coordination and monitoring committee meeting chaired by Chief Secretary Aditya Prasad Padhi on Tuesday reviewed the preparations.

The airports authority of India had signed a memorandum of understanding with the state government to develop the Jharsuguda area into a full-fledged airport.

The airstrip at Jeyore and Uikela will be expedited and made ready within five months.

The Biju Patnaik International Airport, Bhubaneswar, has been suggested to serve as the mentor airport.

Around 60 security and nine fire-service personnel will be deployed at each airport.

Regional connectivity

According to the state government, routes like Bhubaneswar-Uikela, Uikela-Jeypore, Jeypore-Jharsuguda, Barasat-Jharsuguda, Bhubaneswar-Jharsuguda, and Bhubaneswar-Bargarh have been suggested for regional connectivity.

The government will provide subsidies and financial assistance for regional air connectivity as part of its 'Make in Odisha' initiative.

Heavy rain forecast in Bengal

According to the state government, the eastern districts are likely to experience wide-spread rain till September 18.

The southern districts will record fairly wide-spread rain till September 20.

The meteorological department has predicted rainfall for the next two days, after which the intensity may further increase to fairly widespread rain till September 22.

Alert 'keyman' averts train mishap in Tripura

RPF launches probe; damaged track repaired

A train accident was averted along the Agartala-Udaipur route in south Tripura on Monday after an alert 'keyman' informed the railway officials in time to avoid the possible sabotage.

The keyman found that the train, which was scheduled to start operations at 5:44 a.m., was about to start moving on a road where the track was damaged.

Keyman's timely intervention averted the accident.

Train accident in Tripura

The incident took place on the Agartala-Udaipur route in south Tripura on Monday.

The railway official said that the track accident was averted due to timely intervention.

The railway police have launched a probe into the incident.

Several people were injured in the accident, which is being treated as a minor one.
CBI to conduct lie-detection tests on Shimla suspects

The rape case has created a furor in Himachal which goes to polls later this year

Special Correspondent

The Central Bureau of Investigation has got a court approval for conducting lie-detection tests on four suspects by the anti-rape and murder case in Shimla district. The body was discovered two days ago.

The rape case has created a furor in the State which is going to polls later this year.

As directed by the Himachal Pradesh High Court, the CBI registered two cases, including one related to the custodial death of a minor.

The agency has named the retired IAS officer’s wife, Santa Talwar, daughter Shabana and a companion, Kappoor Pharma, as accused in the FIR.

The CBI alleged that Mr. Talwar had amassed disproportionate assets in the last 16 years and is also under investigation in the Himachal land scam case being pursued by the agency.

Helping women stand on their feet

Self-help groups in Jaipur make available loans, credits to women

The seemingly unskilled work of polishing, drilling holes and sharpening edges of semi-precious stones has empowered poor rural women who have organized themselves into self-help groups (SHGs) in the Chaksu block of Jaipur district. Besides earning their financial needs through small credits, these women have also increased their asset ownership.

There has been a region of the village who have not only made available loans and credits to women, but has also contributed to the social and political formative. A large number of women have constituted the village janpeth police posts and were elected to the positions of ward members during the last few years.

Women’s committee and the Rajasthani Mahila Sahakari Seva Samiti was registered under the Cooperative Societies Act, has been a saga of hard struggle for dignity and recognition.

Thanks to the earned of assets, women have obtained credit for purchasing machinery for handcraft work and cottage industries.

Agasti Portmajori, 36, a member of the 94th SHG, told The Tribune on Tuesday that the machines for work in semi-precious stone beads could be used by six women at a time. Manta Prafulla, head of the Saundali SHG, who lost her husband four years ago, is helped by all 16 members of the group.

A request made on the SHG’s initiative for starting her widow pension was promptly accorded a sum, while the regular credit has helped her in getting her two sons educated in the local senior secondary school.

The success of the SHG initiative in Chaksu, near Jaipur, has prompted other credit societies to pitch in with their new idea. The Urban Micro Credit Co-operative Society, which plans to expand its network by opening 65 more SHGs this year, has, last month, laid emphasis on the outreach of financial services through financial inclusion.

Similarly, the Rajasthan Mahila Sahakari Samiti has obtained deposits worth Rs 60.62 crore and its outstanding loans amount to Rs 22.48 crore. It has so far established 1,145 SHGs in the region.

The CBI, in the FIR, said that Mr. Talwar had reportedly acquired several other immovable and movable properties, which could be ascertained during investigation.

Mr. Talwar had joined as the IAS official in 1979 and was allocated the Haryana cadre.

He remained posted as Project Secretary to the then Haryana Chief Minister between March 2008 and October 2009, after which he took retirement. He served as Member in the Competition Commission of India from November 2009 to December 2014.
SC orders CBI probe into police officer's death

Karnataka official had levied charges of harassment

KARNATAKA BANDAGAL

The Supreme Court on Tuesday ordered the Central Bureau of Investigation to probe the suspicious death of a deputy superintendent of police in Karnataka.

Mr. G. S. Ganapathy, an officer in the ranks of the rank-and-file cadre, had been ‘trapped’ by a youth while trying to keep his infant. The girl was whacked to death as per schedule.

The Bench said the case should be investigated thoroughly. The court ordered the CBI to submit a report in the next three months.

In the interest of justice, the matter should be investigated by the CBI. A fair and impartial investigation is required to determine whether his death was a murder or a suicide...

The court ordered the CBI to submit a report on the facts and circumstances of the case.

Forged to quit

The police officer's family had written a letter to the police commissioner, complaining that the CBI had closed the case without even investigating the facts.

Senior advocate Jayant Aranya, appearing for the police officer's family, contended that the CBI had closed the case without even investigating the facts.

Unique rescue effort

Accompanied and cheated by hundreds of volunteers and villagers, the animal, which was chained, walked back to the main road around 4.30 p.m. marking the successful culmination of a unique rescue effort.

The plight of the elephant, marked by its torn trumpeting and struggle to get out of the swamp, was shared on social media where the rescue operations were briefly put on hold in the evening as volunteers administered glucose to the tired animal.

But it was too late: the animal had already been lifted from the swamp.

At one stage, the animal, which was dragged close to the edge of the pool by the volunteers, fell on to the bank as it lost balance.

The new-look Mahabali ruler. That is the traditional portrayal of Maveli, known as an ‘asura’ king? Some have no clue about her whereabouts and her activities.

There are some who argue that the older image of the king is consistent with the modern version of the king, which is portrayed in films and TV serials.

Maveli Devaswom Board (TDB) has responded by giving Maveli a new look.

The new look vampish

From a post-hallavu king sporting a handlebar moustache to a modern, muscular and dapper ruler. That is the modern version.

Major makeover. The king is presented as a young man, with a modern body and a modern hairstyle.

But it has been a huge challenge to bring the king back to life.

The TDB has been working on the project for a long time, and the new look is expected to be unveiled soon.

BJP workers, police face off in Bengaluru, Hubballi

Leaders detained during bike rally

After high drama, police foil Thumbe Chamarajanagar bandh

Leaders arrested during bike rally organised by the Bharatiya Janata Party's Yuva Morcha in Bengaluru and Hubballi on Sunday.

Ministers after it was flagged off; hundreds of workers and leaders were detained. The police had to be deployed to ensure law and order across the State on Monday, despite which the BJP went ahead with it.

The rally was held to demand a ban on People's Front of India and Socialist Democratic Party of India, whose workers have been accused of burning right-wing activists.

There are some who argue that the older image of the king is consistent with the modern version of the king, which is portrayed in films and TV serials.

Maveli Devaswom Board (TDB) has responded by giving Maveli a new look.

Hy
Narrow escape for 108 as aircraft skids off taxiway

Air India's Express Flight IX 1908, which was scheduled to depart from New Delhi's Indira Gandhi International (IGI) airport for Jaipur, narrowly escaped a disaster as it skidded off the taxiway on Thursday night.

The plane was heading to the runway for takeoff when a track near the main runway came under the flight's wheels. The track was repaired immediately, and the plane was able to take off safely.

The incident occurred due to a technical issue with the aircraft's steering system, which caused it to veer off course. The aircraft was returned to the airport for checks, and it resumed its journey to Jaipur without any further issues.

The airline has said that it is investigating the cause of the incident and has taken steps to prevent similar occurrences in the future.

The incident is being handled by the airport's aviation authorities, and the aircraft has been moved to a secure area for further investigation.

The airline has apologized to passengers for the inconvenience caused and has offered assistance to those affected.

The incident highlights the importance of maintaining good maintenance standards and regular checks on aircraft to prevent such accidents from happening.

The airline has also said that it will continue to follow safety protocols and take all necessary measures to ensure the safety of passengers and staff.
There is a Kohinga in all of us

By contemplating deportation of the hapless refugees, India undermines itself

Back on track

India and China must address bilateral issues in a sustainable way, pursuing the BRICS' spirit

By putting a stop to an earlier trend, the new government has re-established the spirit of peaceful cooperation, Prime Minister Narendra Modi's office and the Chinese President Xi Jinping's office have announced. This development is expected to push the two nations closer together, further strengthening their friendship. At the same time, it suggests that the border tensions need to be resolved on a priority basis.

The two leaders' meeting in Chengalpattu, Tamil Nadu, in 2015, was followed by a statement that the Doklam issue would be resolved bilaterally. However, the Doklam issue took a turn for the worse last year, leading to a diplomatic row between the two countries. The situation seemed to reach a temporary resolution when both sides agreed to retreat to their respective positions. But the issue resurfaced recently, leading to concerns about a potential escalation.

Cabinet reshuffle

The Narendra Modi government must be congratulated for the recent cabinet reshuffle. The reshuffle is the second major reshuffle in Modi's cabinet since 2014, and it is expected to bring fresh faces and new ideas to the government. This is a positive sign that the government is looking to rejuvenate itself and take on new challenges.

The reshuffle also marks a shift in the government's priorities. The new cabinet includes several ministers who are known for their strong performances in their previous roles. This is a clear indication that the government is determined to deliver on its promises and improve the lives of its citizens.

Staring down censorship

Why did Beijing risk a backlash from the China studies community?

Since two-thirds of the term remains, the recent cabinet reshuffle is a timely and necessary step. It is expected to result in a more productive and effective government.

The reshuffle also highlights the need for a more robust academic and cultural exchange between India and China. This is crucial for the development of a strategic partnership between the two countries. The reshuffle is a step in the right direction towards achieving this goal.

A technical issue may have caused a minor hiccup in the reshuffle process, as some ministers were reportedly not on the list. However, this issue is expected to be resolved in due course.

Though vehicle users in many parts of India are still on the verge of the transition to electric vehicles, the new cabinet reshuffle is a positive sign that the government is committed to this goal. The reshuffle is expected to bring fresh ideas and new strategies to tackle this challenge.

**Modi’s 10 ‘no confidence’ commitments for BRICS**

PM calls for coordinated action on counter-terrorism, cybersecurity and disaster management

**Prime Minister Narendra Modi on Tuesday pitched for a coordinated action on counter-terrorism, cybersecurity and disaster management at the 10th BRICS summit.**

"India is resolutions of the BRICS summit declaration, expressing concern over the security situation in the region and violence caused by militant groups, including four operating from Pakistan-based terrorist groups in Afghanistan," the declaration said.

"The developments presented a threat to Afghanistan and Pakistan, and to the world," the declaration said. "We have decided to take joint action against terrorism and to support the Afghan government and the Afghan people in their fight against terrorism."

The declaration also said that Afghanistan and Pakistan have agreed to increase the cooperation between the two countries and to work towards achieving a lasting peace in the region.

"We reaffirm our commitment to the principles of non-interference in the internal affairs of other countries, respect for international law and the United Nations Charter, and the prohibition of the use of force," the declaration said.

"The BRICS members have agreed to strengthen their cooperation in counter-terrorism, cybersecurity, and disaster management, and to support the Afghan government in its efforts to achieve a lasting peace in the region," the declaration said.

**India to bolster bilateral ties with China**

Prime Minister Narendra Modi in a meeting with Chinese President Xi Jinping on Wednesday.

"Modi and Xi Jinping agreed to strengthen the strategic partnership between India and China," said a joint statement.

"They reaffirmed their commitment to work together to address the challenges posed by the global economy, to promote economic growth, to combat terrorism, and to ensure the safety of the Belt and Road Initiative projects," the statement said.

"The two leaders discussed the implementation of the agreements reached during Modi's visit to China," the statement said.

"They also agreed to strengthen the cooperation in the fields of energy, agriculture, and the Belt and Road Initiative."

Coal India to regulate supply to non-power sectors

‘Nine power plants have less than three days’ coal stock’

The monitoring and control unit could shake criss-cross of power stations, said the official. ‘Coal, otherwise, would have 3.2 million tonnes to the same industry. This was possible due to a 3.2 million tonnes drained from stocks—one of the highest—one, a senior official said. All was well, he said, it was still below the goal set for the period.

In the wake of poor demand and high stocks with the power sector last fiscal, CIL had marked the year with stocks of 64.4 million tonnes, the official said.

‘Bringing coal back on track is priority for Indian Railways’

Floods lead to transportation issues; coal loading declines, misses target

The new Railway Minister Piyush Goyal, who also re- signed as the coal minister in the last cabinet, has assumed charge at a time when coal loading issues are on the rise.

Coal loading, which accounts for almost half of the Indian Railways freight traffic, declined around 25% in April-July to floods, poor transportation to coal mines and closure of the Mundra-Chandrapur rail line.

According to sources, the holding in the insurer.

Reliance Capital plans to dilute about 25% of its offering, which is a 100% integrated partner. The insurance regulator has already given in-principle approval from the Insurance Regulatory and Development Authority.

The new holding is expected to be about ₹7,000 crore.

HP tablet to enable State services

Device has been designed to monitor Aadhaar-based subsidy distribution

The Pro8 tablet range comprises 16 tablets, says Sumeer Chandra. The Pro8 tablet range comprises 16 tablets and features Android OS ‘Marshmallow’, said Mr. Bakshi. It has a fingerprint reader and thermal printer for Aadhaar-based authentication. The device has a fingerprint reader and thermal printer for Aadhaar-based authentication. The device is expected to be used by Aadhaar enrolment and tracking, he added.

The device were designed by HP’s Digital India Unit with inputs from public and private sector customers. They feature a sunlight readable screen for outdoor usage, a large battery for uninterrupted operation inside the field, and a data- and voice-connected build, with support for 4G mobile networks.

The tablets, targeted mainly at government use, are equipped with Android OS ‘Marshmallow’, Quad Core Processor, 2GB RAM, 16 GB eMMC, Bluetooth 4.0, 4G LTE connectivity, with the option of a SIM card.

TRAI moos norms for M2M services

New rules to ensure seamless M2M communication

The Telecom Trai is expected to be the norm to control duties such as TVS, washing machines and air conditioners using mobile phones.
India will hope to sign off with a flourish

Opportunity to fine-tune ahead of upcoming T20 home series against Australia and New Zealand

India's World Cup final triumph in 2011 was followed by the team's first World T20 title in 2016. Since then, India has added another victory in the T20 World Cup to its list of achievements. Considering the rampaging run of its players, it is all the more surprising that there were occasions in the past where the team failed to capitalise on its strengths.

The opening game of the four-match T20 series between India and New Zealand will be played at the newly-built Trent Bridge in Nottingham on Thursday. India will be performing in the UK for the first time since 2005, when it played the Full Blacks and the Black Caps in the ICC World Cup. In the T20 format, India and New Zealand have played 16 matches, with India winning 10, New Zealand winning 6 and the remaining 1 match being a no result. India is in a good place to start preparation for Australia's visit to India in 2022.
Balwant does the star turn in 20 wins helps India maintain its 100% record

**Crying is as important as breathing for babies: study**

Scientists show how the two activities are physically linked in the brain.

**Diabetes, heart disease risk linked**

Researchers track pathological pathways.

**Identifying gene variants opens up how risk of both outcomes is affected by a single drug**

The shared genetic risk factors affect biological pathways, including immune cell polarization, and heart development. Therefore, to identify a specific genetic variant that influences both outcomes, researchers have linked two variants that are associated with the same genetic pathway.

**How lack of sleep can harm marital relationships**

Scientists at Ohio State University find that couples who are likely to be hostile when both partners were functioning on less than seven hours of shut-eye.

**10 TIPS FOR EATING**

It started as a simple conversation among a group of friends who were all interested in nutrition. The idea was to compile a list of tips that would help everyone maintain a healthy diet.

**Feeling stressed?**

The technicians started by examining sets of genetic data. They identified two gene variants that were associated with both outcomes, and then they focused on those variants that are associated with stronger genetic effects.

**How to reduce stress and anxiety**

Identifying gene variants associated with higher risk of diabetes are also associated with higher risk of heart disease.
