Forging bonds in Valley with fusion music

Pradesh HMS

Aithra Shyam’s goal is to put Kashmiri on the global map. Her foot-tapping tunes are already an online sensation, and on Saturday, her performance in Srinagar produced a rare bonding of Kashmiri songs with popular fusion music.

Kashmiri Pandit hails from the Muslim community. His parents had left the Valley in 1990 and moved to Delhi in 1995, Shyam, who has done a B.A. in music, started giving concerts in Delhi. "Kashmiri music is rich in its rhythm and the beauty of the Valley. Aithra has hails from Budgam district. She goes to college and studies those tunes to listen to her music. She has been playing the Sitar since she was seven years old. She plays with a group called the Sitar Girls, which is a fusion band. She has also performed with the Sitar Girls in various concerts. Shyam wants to make Kashmiri music popular in the world."

India under U.S. pressure to scale down ties with North Korea

Railways cut sleeping time

India is under U.S. pressure to scale down ties with North Korea. The United States has been pressing India to reduce its dependence on North Korea for railway equipment and technology. The U.S. has been trying to convince India to scale down its investments in North Korea's railway sector as part of its broader strategy to isolate the North.

According to a U.S. official, the U.S. has been asking India to reduce its dependence on North Korea for railway equipment and technology. The U.S. has been trying to convince India to scale down its investments in North Korea's railway sector as part of its broader strategy to isolate the North.

The U.S. has been warning India about the dangers of doing business with North Korea, particularly in the railway sector, where the North has a strong presence. The U.S. has been trying to convince India to reduce its dependence on North Korea for railway equipment and technology as part of its broader strategy to isolate the North.

The U.S. has been concerned about India's growing economic ties with North Korea, particularly in the railway sector, where the North has a strong presence. The U.S. has been trying to convince India to reduce its dependence on North Korea for railway equipment and technology as part of its broader strategy to isolate the North.

AAP to field former General from Gurudaspur

AAP seat vacant after demise of sitting MP Vidhansabha seat in the previous assembly. In the current assembly, the AAP has 55 seats, and if they field a candidate, it will add to their tally. The AAP has been consistent in fielding candidates from Gurudaspur, a constituency that has been in the news lately due to Dushyant Chautala's citizenship issue.

PPLs will be strengthened further: Khatrri

Khatrri is the Union Minister for Tourism, Culture, and Heavy Industries. He is known for his strong stance on tourism and cultural issues. In his statement, he highlighted the importance of PPLs (Public Private Partnerships) in strengthening tourism in the country. PPLs are collaborative arrangements between the government and private entities to promote tourism. Khatrri emphasized the need for these partnerships to be strengthened to attract more tourists and boost the country's economy.

Ex-servicemen get help from government

The government has been proactive in providing help to ex-servicemen, especially in the field of employment and education. The Union Minister for Defence, Manohar Lal Khattar, has stressed on the need for special programs to help ex-servicemen find employment. He has advocated for more initiatives to support them in their transition to civilian life.

Khattar's Swachhta yatra continues

The Haryana Chief Minister, Manohar Lal Khattar, has been on a Swachhta yatra in several districts of the state, promoting cleanliness and hygiene. In his recent visit to Suraj, he highlighted the importance of cleanliness in public places. Khattar also praised the efforts of the residents in maintaining cleanliness in their areas.

Nagpur quota row: Another round of protests

The Nagpur quota row has been a long-standing issue in Maharashtra. The state government has been under pressure to withdraw the bill, which proposes reservation for Nagpur region in government jobs and education. The opposition has been demanding its withdrawal, and protests have been held across the state. The situation has escalated, and the government has been facing criticism for its handling of the issue.

Farmers up in arms against BJP policies

The farmers' movement has gained momentum, with thousands of farmers from various parts of the country protesting against the government's policies. The demands of the farmers include repeal of farm laws, guaranteed minimum support price for crops, and control on food inflation. The Delhi Police has had to deploy a large contingent of police to maintain law and order during the protests.

Ex-servicemen demand relief:

The ex-servicemen have been demanding financial and other types of relief from the government. They have been protesting against the lack of proper recognition and support provided to them by the government. The demands include adequate compensation for war-related injuries, regular health check-ups, and provision of employment opportunities.

BJD hortal today against petrol, diesel price hike

Party workers, supporters to stage peaceful agitation

BJD holds big rally on Sunday

The ruling Biju Janata Dal (BJD) on Sunday announced its decision to stage a big rally across Odisha on Monday to protest the hike in the petrol and diesel prices, ary leaders said.

The party leaders alleged that the hike in the petrol and diesel prices, which happened despite a slide in crude oil price in the international market, had led to an increase in fuel prices in the state.

BJD will hold its big rally on Monday at Bhubaneswar and the other districts across the state.

CAG pulls up Odisha govt over deaths of newborns

「No review to find out causes behind deaths」

Mizoram peace talks on Thursday

Peace talks between the Mizoram government and the Manipur-based Zoram People’s Convention (Democratic) are scheduled to resume on Thursday, a senior Home Department official said.

BJP leader accuses govt of not providing aid to investigation

BJP general secretary Md Salim Khan, who has been appointed special secretary of the BJP, has written a letter to Home Minister Naveen Patnaik, demanding that the government provide necessary aid to investigation.

BJD-Cong nexus in Odisha

A senior BJD leader on Sunday alleged that the Congress had abandoned the Naveen Patnaik government during the just-concluded session of the state legislature.

BJD has already decided to team up with the Congress to form the government in the state, the leader said.

BJD to contest alone in all seats

The Biju Janata Dal (BJD), which had formed the government in Odisha with the support of the Congress in 2019, has decided to contest the upcoming Lok Sabha elections alone.

BJD will hold a large rally on Monday to protest the hike in petrol and diesel prices.

BJD leader flags highway safety

BJD leader Pradipta Kumar Mohapatra on Sunday flagged the issue of safety on highways in the state.

BJD leaders alleged that the government was not taking sufficient steps to ensure safety on highways.

No talks till Pakistan stops backing terror, says Rajnath

India stronger now, will respond with several ballots to one, says Minister

Sirankulam: India is stronger now, will respond with several ballots to one, said Union Home Minister Rajnath Singh on Friday.

"As a Pakistan continues to pursue a definite policy of backing terrorism, sending missiles, funding and helping with training, with supply of arms and ammunition with all neighboring countries, we will continue to respond," the Union Home Minister Rajnath Singh, had said on Friday.

He said: "A public meeting on the 10th of Sanyalatya Sabha in 2019, and the news media has been circulating that the India army has moved into the town of Lumbini, where a series of terrorist attacks have occurred."

"I urge the international community to immediately condemn and take strong action against Pakistan," Singh said.

Strong message: Home Minister Rajnath Singh at the Sanyalatya Sabha in 2019, and the news media has been circulating that the India army has moved into the town of Lumbini, where a series of terrorist attacks have occurred.

"It is imperative upon the international community to immediately condemn and take strong action against Pakistan," the home minister said. Singh said.

"The situation is very serious," he added, "and it is time to act."

Ram and the then Chief Minister of Uttar Pradesh, K. Murli Manohar Joshi, had earlier condemned the Pakistan government for its support to terrorism.

Alert across Kerala as monsoon pays off debt

Downpour expected to continue for more two days

Kollam: Heavy rains are expected across Kerala as the monsoon continues to pay off the debt.

"The heavy rains of the past few days have not only reduced the debt but have also helped in the water storage," said the Kerala government.

"The monsoon has been highly beneficial to Kerala," the government said.

"We are expecting more rain in the next two days," the government added.

"We are preparing for the worst," the government said.

Air Force built on Marshal Singh's values' Gun salute, funeral today

IOBAL CORRESPONDENT

Marshal of the Indian Air Force Arjan Singh died at 20,9, 2015, at 20,30 hrs at AIIMS, New Delhi, at 81 years of age. He was cremated at 20,9, at 11,15 hrs at the Air Force Station, Palam, New Delhi. An air salutation was fired as the coffin was taken to the cremation ground. The Marshal's ashes will be taken to the Amar Jawan Jyoti in New Delhi by an army guard. The family was present at the cremation.

Air Force, which has built many brave men over the years, built an institution on the Marshal Arjan Singh's values. The Marshal was a soldier by birth and believed in doing the right thing, no matter the situation. He was a leader who always stood by his principles and never compromised on his values. He was a man of integrity and honesty.

The Marshal's values were instilled in the Air Force from the very beginning. He believed in treating all personnel with respect and dignity, and this was reflected in the way the Air Force was run during his tenure. He was a visionary leader who looked ahead and planned for the future. He believed in preparing the Air Force for the future by investing in research and development.

The Marshal's legacy lives on in the Air Force. His values continue to inspire the officers and men of the Air Force to this day. The Marshal's memory will be forever remembered in the Air Force.

Air Force personnel from all over the world paid their respects to the Marshal. The Marshal's coffin was taken to the cremation ground by an army guard. The family was present at the cremation.

Another encounter killing in U.P.

With this, the total number of such killings under Vidy government rises to 15

Oxygen supplier held in U.P.

The government of Uttar Pradesh has arrested a supplier of medical oxygen in connection with the recent oxygen shortage crisis. The supplier, named Ram Pratap, was arrested for supplying oxygen cylinders to hospitals and medical institutions without proper authorization. The government has also imposed a fine of Rs. 10 lakh on the supplier.

The oxygen shortage crisis in Uttar Pradesh has led to the deaths of several patients. The government has taken several measures to address the crisis, including the establishment of oxygen supply points and the hiring of oxygen generators. However, the shortage has continued due to the ongoing COVID-19 pandemic.

The government has also directed hospitals and medical institutions to prioritize the use of oxygen for critical patients and to report any shortages immediately. The government has also warned that any violation of the rules will be dealt with strictly.

The government has also appealed to the people to cooperate with the government and help in the fight against COVID-19. The government has also urged the people to follow the guidelines and take necessary precautions to prevent the spread of the virus.

Periyar's trust with socialism

On his birth anniversary and the centenary of the Russian revolution, an intriguing what if...

A. B. N. Suresh

On December 13, 1920, Periyar sailed on the French ship, detroit, from Marseilles to Paris where he met with Lenin and other revolutionary leaders and returned to the Soviet Union. The Communist International Department observed, "Periyar as the ablest Tamil revolutionary, can take the lead in this work and see that the Tamil question is handled in the most secret possible." It is referred to in Periyar's Jeevitha Raadhi, "The foreign trip in 1920 was the most important part of my life for which I am deeply grateful to the Congress as it had had a profound effect on me. I am glad to have had the opportunity to meet with Lenin as that man has always been an inspiration to me and subsidised me with fifty rupees for travel to Russia."

During his foreign trip, the Tamil neuology part of which was reproduced in his inaugural address and the second part has never surfaced. In 1997, V. Ananthanarayan, a leading Tamil writer, published Periyar's diary dream for the first time, which is the single most important source of information about Periyar's foreign trip.

The Soviet tour

Periyar wrote a postcard translation, in Tamil, to his friend, K. Ramaswamy Iyer, who took into account the interests of the people of Tamil Nadu and his young relative, Ramu, accompanying him on this tour.

India had to wait two months for Soviet permission. It is true that the periphery was past its bloom, but the pass was expected. In April 1920, the Tata Mundil went through the western port, and after a week crossing the blue waters, the Tata Mundil was welcomed at Riga. He made a tour of the Baltic states and then came to Moscow.

From April 19, when he returned to the USSR, his journåny to the day's record of his subsequent visit. Here he was housed by Mr. Periyar refers to as 'the League of Nations.' His official duties included organizing the body of the Bolshevik Revolution, and Periyar was too busy to get into any political details of the meeting with Lenin. Periyar met some of them, including the Commissar of the Commissariat of India. The main mission of the mission was to discuss the situation of the revolution and its impact on the people of the world. The main mission was to discuss the situation of the revolution and its impact on the people of the world. The main mission was to discuss the situation of the revolution and its impact on the people of the world.

Periyar remained impressed by the achievements of the Soviet Union and its influence all over the world. But the indigenous culture of the country and the economy is marked with a deep ideal of schemes and programmes of the government. His ideal was to learn from the society and its programme in the larger interest of the people of the world.

When to grant anonymity

In his book, "On the responsibility of the press," Periyar expressed his view that the press is the "only one that has the right to hide behind the cloak of his anonymity."

To every journalist who is not too stupid or too wise, this will be a constant reminder that even the well-intentioned must learn to use a name, a code, or the appropriate form of anonymity in the present political climate. In journalism, I often observe that confidentiality and anonymity are the ideal, in the form of schemes and programmes of the government. He believed that the media had the responsibility to ensure that people stay informed and educated.

Periyar's foreign tour was a turning point in his life. The complete control of organization and economy by the state made a deep impact on him. It is in China, where he was present in the咣CISION of the revolution and its impact on the people of the world. The main mission was to discuss the situation of the revolution and its impact on the people of the world.

Russia denies bombing U.S.-backed forces

Russia's Defence Ministry on Sunday rejected allegations it had carried out any strikes on Islamic State targets in Syria, saying its operations were aimed only at defending Russian and Syrian armed forces on the ground. The ministry said in a statement on Sunday, Gen. Konashenkov and Russian planes had only carried out attacks on targets based on information received from multiple sources.

The ministry also reiterated that strikes had only been carried out in the course of the Syrian army's operations. It said the ministry's comments came after President Bashar Assad's forces on Sunday encountered opposition forces in the city of Deir al-Zor, an oil-rich city on the eastern bank of the Euphrates.

British police arrested a man on Sunday near the London commuter train on Friday that targeted Shoab Khan asked the country to unite from high-stakes diplomacy at the highest setting. The 20-year-old man detained under Britain's terror laws faces the most serious charge of terrorism after a 12-mile arrest was made in the early morning.

Search in Sunday

Police said on Sunday they were searching a residential property in Stafford, Surrey, close to the perimeter of London's Heathrow Airport, in connection with the London attack.

The search of the property was conducted by the county of Surrey next to the capital's company was confirmed by Surrey Police. The statement added that the search was being carried out by local residents, they said.

Tweaks to pact with S. Korea mooted

Rapid rise in gold imports from Asian nation causes alarm; 'criminal' angle comes under lens

The Hindustan Times
MONDAY, SEPTEMBER 18, 2017

HINDU BUSINESS

Two to one, SBI reviewing minimum balance charges

SBI is looking to plug loopholes in its Free Trade Agreement (FTA) with South Korea following concerns over a recent sudden surge in imports of gold and related articles from that country.

Authorities are also keen to be probing a possible criminal angle over the recent rapid rise in imports of the precious metal from South Korea. The rise has happened due to certain figures, 'spread and operated by some Indians', allegedly misusing the Indian-South Korea FTA that allows duty-free import of the precious metal and its articles.

According to the government, gold imports from South Korea had shot up to about ₹400 million in the period July 1-August 3, 2017, compared with about ₹70 million for all of FY16. The implementation of the Goods and Services Tax (GST) from July led to the import surge.

Pre-GST, gold imports through the non-FTA channel attracted a 2.5% customs duty as well as 12.5% as custom duty. However, those from the FTA route were levied a 2.5% CTD on the FTA-eligible customs duty on gold imports, which discouraged such gold imports. Under the new tax regime, a 3% GST replaced the CTD.

This meant gold imports from the non-FTA route at 2.5% CTD would attract a 2.5% custom duty as well as 12.5% as custom duty, while those from the FTA route at 2.5% GST channel paid only 3% GST, which could be later claimed as input tax credit. What has raised eyebrows is that South Korea is not a netting producer or importer of gold, GST has been designed to

Airtel bank enables UPI payments

Airtel Payments Bank is set to launch digital wallet service this month.

Mr. Arora said, "Mr. Arora said that the Airtel Payments Bank will be offering digital wallet service worth ₹500 cr. in festival sale. To take on bigger rivals such as Amazon and Flipkart."

Airtel Payments Bank will be offering UPI payments service worth ₹500 crores in festival sale.

GST Composition Scheme registration open till Sept. 30

Move to aid those who could not register before April 16

Special Correspondent

The Goods and Services Tax Network on Sunday announced the opening of the registration window for the Composition Scheme again till September 30.

The Scheme, introduced last year, enables small taxpayers with a turnover of less than ₹2 crore to register as a Composition Scheme taxpayer by paying a fixed amount of tax instead of the normal margin tax.

"More taxpayers who migrated after August 1 could not avail the facility as it was open till August 31, 2017," the GSTN said in a notice. To make the facility available to all those who could not opt for Composition Scheme, the facility has been opened again by the GST Council. This is also open to those who registered abroad under GST but did not avail the facility at the time of registration.

"Any person who has been granted registration on a provisional basis or regular basis and has turnover not exceeding ₹50 lakh and who wishes to opt for the Composition scheme by paying a fixed amount of tax, duly agreed or verified through electronic verification code, at the GST portal on or before September 30, 2017," Prabhakar Kumar, CEO of the GSTN said.

"The composition scheme has been designed to simplify and reduce the burden of compliance for smaller taxpayers," Mr. Kumar added.

Gold imports increase threefold to ₹15 billion

Festive season to push demand

Special Correspondent

The country’s gold imports recorded a three-fold jump to ₹15.24 billion during the April-September period of the current fiscal, Commerce Ministry data showed.

Gold imports, which have seen a sharp decline in the last few years, rose sharply to ₹4.92 billion in August-September this year from ₹1.6 billion in the same period of the previous fiscal.

A surge in gold imports last month contributed to the widening of trade deficit to ₹164 billion as against ₹113 billion in the same period last year.

The imports are expected to increase in view of the forthcoming festive season, which will start from the end of this month. Increase in individual imports of gold is also one of the reasons for higher CAD.

The CAD rose sharply to ₹6.3 billion or -0.4% of GDP at the end of first quarter of 2017-18. In general terms, CAD refers to the difference between inflow and outflow of money in a country as an impact on exchange rate.

India is the world’s second-biggest gold consumer after China. The imports mainly take care of jewellery industry demand.
Nexa: How Maruti hit pay dirt

A niche for premium models in its dealer network faced scepticism, but paid off

Why a market leader cops with mid-life alters about taking on a changing demographic landscape?

The Indian automobile market has been首饰着 millions of cars over the past few years. Maruti Suzuki, which is a market leader, has recently embarked on an aggressive marketing campaign to attract customers to its premium models. The company has faced initial scepticism about the viability of premium models in its dealer network, but has been able to prove its worth.

About two years ago, we had launched a premium model in the market... the remaining 15-25% of the volume, it is said, comes to us," said Mr. Kaliyana, executive director, marketing, sales and service.

The launch of the premium model was a calculated risk. The company had to ensure that the model would be successful in the market. The premium model was launched in the midst of a challenging market scenario, with a slowdown in the automotive industry. However, the company had faith in the potential of the premium model, and it proved to be a wise decision.

What are the benefits of launching a premium model?

Launching a premium model has several benefits.

1. Increased revenue: Premium models are priced higher than standard models, which results in increased revenue for the company.
2. Improved perception: Launching a premium model can improve the company's perception in the market, as it shows that the company is willing to take on challenges and offer premium options.
3. Increased brand value: Premium models can help in increasing the brand value of the company, as they are seen as a symbol of prestige and luxury.

What challenges were faced during the launch?

The launch of the premium model was not without challenges. The company had to ensure that the model was well-received by the market. The company had to conduct extensive market research to understand the preferences of the target audience. The company had to ensure that the model was well-marketed and promoted to reach the target audience.

What is next for Maruti Suzuki?

Maruti Suzuki is looking forward to the future with optimism. The company is planning to launch several new models in the coming years to cater to the changing market needs. The company is also focusing on digitisation and technology to stay ahead of the curve.

"After the first 50 showrooms, we have also started the process of..." he said.

The company is also looking at ways to increase its market share, with a focus on expanding its dealer network and improving its after-sales services. The company is investing in research and development to stay ahead of the competition.

In conclusion, the launch of the premium model was a calculated risk that paid off for Maruti Suzuki. The company has shown that it is willing to take on challenges and offer premium options to its customers. The company is looking forward to the future with optimism and is planning several new models to cater to the changing market needs. The company is focusing on digitisation and technology to stay ahead of the curve.
Hurricane hardik and vintage dhoni delight

In a chase reduced to 21 overs after a drizzle-induced delay, Australia falls short by 26 runs.

The fearless aggression of young centurion with experienced lead anchor Suryakumar Yadav and M.S. Dhoni has set the tone.

Then, the bowlers were on target when Australia, in its chase made an attempt to score for the home side, first, darkness, and then monsoon.

A continued delightful displayed the Australians' response by 322 minutes. When play got underway again, the Aussie target was revised to 364 from 126 balls. Jazprit Bumrah's short work of delivering off-beat deliveries has been turning in current quick action.

Australia's opening pair of steers, Khawaja and Bailey, pushed the pace along with a 125-run stand before Khawaja was caught at slip by Pant. Bailey followed suit, dismissing the other batter at the other end. Then came a consolidation stand of 164 runs for the third wicket between Warner and Smith.

Out of the hand, Pant and Khawaja proved the Aussies' attack to the swinging context of India.

dhl

Shahid Afridi

Once the second wicket fell, the Aussies started sliding down in the chase. The visiting team scored 25 runs in the first 15 overs, with Warner scoring 50 and Smith 27.

The first wicket fell on the 25th over, and the second one fell on the 37th over. By the end of the 39th over, the Aussies were 140 for 3.

The third wicket fell on the 44th over, and the fourth one fell on the 48th over. By the end of the 50th over, the Aussies were 171 for 4.

The fifth wicket fell on the 51st over, and the sixth one fell on the 56th over. By the end of the 60th over, the Aussies were 219 for 6.

The seventh wicket fell on the 61st over, and the eighth one fell on the 66th over. By the end of the 80th over, the Aussies were 278 for 8.

The ninth wicket fell on the 81st over, and the tenth one fell on the 86th over. By the end of the 100th over, the Aussies were 322 for 10.

The 11th wicket fell on the 101st over, and the 12th one fell on the 106th over. By the end of the 120th over, the Aussies were 364 for 12.

The 13th wicket fell on the 121st over, and the 14th one fell on the 126th over. By the end of the 140th over, the Aussies were 408 for 14.

The 15th wicket fell on the 141st over, and the 16th one fell on the 146th over. By the end of the 160th over, the Aussies were 452 for 16.

The 17th wicket fell on the 161st over, and the 18th one fell on the 166th over. By the end of the 180th over, the Aussies were 498 for 18.

The 19th wicket fell on the 181st over, and the 20th one fell on the 186th over. By the end of the 200th over, the Aussies were 546 for 20.

The 21st wicket fell on the 201st over, and the 22nd one fell on the 206th over. By the end of the 220th over, the Aussies were 594 for 22.

The 23rd wicket fell on the 221st over, and the 24th one fell on the 226th over. By the end of the 240th over, the Aussies were 642 for 24.

The 25th wicket fell on the 241st over, and the 26th one fell on the 246th over. By the end of the 260th over, the Aussies were 690 for 26.

The 27th wicket fell on the 261st over, and the 28th one fell on the 266th over. By the end of the 280th over, the Aussies were 738 for 28.

The 29th wicket fell on the 281st over, and the 30th one fell on the 286th over. By the end of the 300th over, the Aussies were 786 for 30.

The 31st wicket fell on the 301st over, and the 32nd one fell on the 306th over. By the end of the 320th over, the Aussies were 834 for 32.

The 33rd wicket fell on the 331st over, and the 34th one fell on the 336th over. By the end of the 340th over, the Aussies were 882 for 34.

The 35th wicket fell on the 351st over, and the 36th one fell on the 356th over. By the end of the 360th over, the Aussies were 930 for 36.

The 37th wicket fell on the 371st over, and the 38th one fell on the 376th over. By the end of the 380th over, the Aussies were 978 for 38.

The 39th wicket fell on the 391st over, and the 40th one fell on the 396th over. By the end of the 400th over, the Aussies were 1026 for 40.

The 41st wicket fell on the 411st over, and the 42nd one fell on the 416th over. By the end of the 420th over, the Aussies were 1074 for 42.

The 43rd wicket fell on the 431st over, and the 44th one fell on the 436th over. By the end of the 440th over, the Aussies were 1122 for 44.

The 45th wicket fell on the 451st over, and the 46th one fell on the 456th over. By the end of the 460th over, the Aussies were 1170 for 46.

The 47th wicket fell on the 471st over, and the 48th one fell on the 476th over. By the end of the 480th over, the Aussies were 1218 for 48.

The 49th wicket fell on the 491st over, and the 50th one fell on the 496th over. By the end of the 500th over, the Aussies were 1266 for 50.

Asian squad for shooting World Cup finals

India celebrated a rich haul of medals at the Junior World Shooting Championship on Sunday, but there was only one gold through Saurabh Chaudhary, who won the 10m air rifle. The Indian squad has placed second in the medals tally with a total of 15 medals, including four silvers and eight bronzes. The best performance from the Indian squad was in the mixed air rifle team event, which won gold, while J.B.S. Vidyadhar, Tanvinder Singh and Anjum Moudgil also won individual medals.

Nestor & Pospisil give Canada the lead
Purav & Bopanna come up short in the doubles rubber

Indonesia's World Cup hopes suffered a huge setback as Robin Raja and Purav Bhura lost the crucial rubber on Saturday to give Canada the lead in the Davis Cup playoffs on Sunday. Raja lost 7-5, 7-5, 6-3 to Dusan Lajovic and Vasek Pospisil to hand Canada a 2-1 lead. Canada's Daniel Nestor and Vasek Pospisil clinched the doubles on Saturday against Purav Bhura and Bopanna to keep Canada's hopes alive for the World Group.

Belgium to meet France in final

Belgium's World Group hopes were also dashed as they were defeated by France in the reverse singles on Sunday to set up a World Group play-off stage between Belgium and France. France's Jo-Wilfried Tsonga defeated Dusan Lajovic 2-6, 6-1, 11-8, 10-12, 11-7, 11-13, 11-7 to help France clinch their place in the World Group.

Lin comes of age with stunning win

Lin Gaoyuan was the winner as he overcame fancied old foe Fan for men's title. Lin, who has been consistently outsmarting his fellow players ever since losing the 2012 final, to break the hoodoo with an emphatic victory.

Hamilton wins chaotic race

Hamilton took the win in a chaotic race with world champion Vettel retiring. Hamilton, who had said ahead of the race that he was looking to reclaim the world championship lead from his teammate Sebastian Vettel, was looking to claim the lead from the Italian in the wet weather conditions. Hamilton, who had started from pole position, was able to overtake Vettel on the first lap and held off the challenge of Vettel's team-mate Romain Grosjean to claim the win.

Disastrous start:

Disastrous start for the Grand Prix as Verstappen and Ricciardo were crashed on the first lap. Ricciardo was able to recover and move towards the front of the field, while Verstappen was out of the race and also wasn't able to compete in the final stages of the race.

Grand Prix:

Hamilton wins chaotic race in Singapore

Lewis Hamilton won a chaotic and rainy Singapore Grand Prix on Sunday to win his third race in Singapore, which saw three safety cars and finished with only 62 drivers. Hamilton, who was leading comfortably from the start, was able to hold off Verstappen and Ricciardo to claim the win.

Charles won't live at Buckingham as king

Prince wants palace to be made more commercially viable

FRESH TRENDS OF INDIA

Britain’s Prince Charles has no plans of moving into Buckingham Palace when he becomes king and is discussing plans to turn it into a more business-like “Monarchy HQ”, The Sunday Times quoted royal insiders as saying.

The 68-year-old heir to the throne could be made more commercially viable by turning it into an entertainment venue opening it to the public on a larger scale than is possible with the Queen in residence. According to the newspaper, Prince Charles has personally told staff he does not intend to live at what he refers to as the “Big House” and is “very comfortable” at Clarence House, his London home which with Camilla, Duchess of Cornwall, also houses his official office.

“I know he is no fan of the Big House”, as he calls the palace. He doesn’t wish to be a virtual future home or a house that’s fit for purpose in the modern world. He feels its upkeep, both a financial and environmental deterrent, or so-called “Monarchy HQ”, the newspaper quoted a source as saying. Royal staff have had informal discussions over the palace, which is mainly open to visitors from July 30 until October while the 76-year-old Queen takes her annual break at Balmoral Castle in Scotland.

Renfurbishment

Under Prince Charles as monarch, the palace might become a museum open for longer periods with an emphasis on a “new scale” to be guided by his mother’s second-breaking palace. The palace is under-going a £20 million tax payer-funded refurbishment.

The U.K. Treasury has said the building needs an “urgent overhaul” to prevent the risk of fire, flood and damage.

“Buckingham Palace will remain the official London residence of the monarch,” a Clarence House spokesperson said.

The discussion of the palace’s future comes amid reports of differences between senior courtiers at Buckingham Palace and Clarence House over how to manage the transition of power between the Queen and heir.

The three royal households—Buckingham Palace, Clarence House and Kensington Palace—are to release a rare joint statement following claims in The Times of a power struggle involving Sir Christopher Geidt, the Queen’s former private secretary.

The Prince of Wales and the entire royal family are committed to supporting the Queen in whatever way they can at Majesty’s request.

Beyond that, we are not going to comment on the internal workings of the household based on rumours from un-named sources,” the joint statement said.

Prince Charles has been heir to the throne since his mother became Queen in 1952.

Can values education lead to outcomes? The challenges of the public opinion crisis shaped by mass media, and unscrupulous forces at the helm

V O I C E S

Why not e-elections?

The amount of paper wastage witnessed on campus during the Delhi University Students' Union elections every year is tremendous. It was no different on September 12 this year. However, orders from the Election Commission have been ignored, as the number of paper wasted during election campaigns and the printing of pamphlets is still rampant. They are still littering the campus — should be a cause for concern for those who care for the education of their children, and the beneficial future of their children could be handicapped if they are not made aware of their responsibility.

The amount of paper used during e-elections is nothing but a display of money and muscle power. There are number of pamphlets with the blessings of the Election Commission, the political parties are still unaltered. They are still Cunning the ground and spreading the words with posters.

The use of paper should be minimized as much as possible. It is really saddening that despite the warnings by the Election Commission, the political parties are still unaltered. They are still Cunning the ground and spreading the words with posters.

The need of the hour is to punish those who are not following the rules. The Election Commission should be given power to fine the political parties and candidates who are not following the rules.

The use of e-electronics should be encouraged instead of the use of paper. The Election Commission should be given power to fine the political parties and candidates who are not following the rules.

The use of paper should be minimized as much as possible. It is really saddening that despite the warnings by the Election Commission, the political parties are still unaltered. They are still Cunning the ground and spreading the words with posters.

The need of the hour is to punish those who are not following the rules. The Election Commission should be given power to fine the political parties and candidates who are not following the rules.

The use of e-electronics should be encouraged instead of the use of paper. The Election Commission should be given power to fine the political parties and candidates who are not following the rules.

Why not e-elections?

The amount of paper used during e-elections is nothing but a display of money and muscle power. They are still Cunning the ground and spreading the words with posters.

Let go of those handlebars!

College life is about finding those new, interesting challenges, each of which not only leads to your growth, but also tests your limits.

The author teaches at the English and Foreign Languages University, Chennai (a deemed-to-be University)

Index funds are the Rahul Gandhi of the investment world. He always has a lot to tell you. He is a disciple of the master, Warren Buffett. He says, “I invest in index funds.” So what do you think? Do you invest in index funds?

The millennials. (https://youtu.be/vudaAYx2IcE)

The Science Behind Mayweather vs. McGregor

The Millenial Question

Millenial are those who are between the late 1980s and the early 2000s. They are often described as self-centered, self-absorbed, and attention-seeking. In the past, even companies where the millennials would apply were not satisfied with them. According to a study by a research and authorship firm, millennials are the underdogs. They are the ‘Millennial’ generation’s interest. I may not have much to say about them, but I never fail to try to study them.

It was two just days before the deadline that I answered these brilliantly introspective questions to the best of my capacity. Call it qualifications to the environmental science question.

I had been preparing a presentation on the topic of Virtual Reality for an evening. It was a very high time. My advisor told me to go ahead and win the second prize. The presentation I had prepared wouldn’t be a surprise, it was already done. So I decided to do something different. I decided to do something different for the thrill of taking up a challenge.

I don’t know what happened, but the result was this. It was the second prize. And it was all because of the thrill of taking up a challenge.

I am sure the thrill of taking up a challenge will help me in the future too.

The Science Behind Mayweather vs. McGregor

The author teaches at the Department of Physics, University of Delhi, and will be completing his PhD in January 2020.

What is the recipe? The idea is to slice the ingredients into smaller pieces, so that the flavors can interact. You can use any meat or cheese, any vegetables, and any sauces. Just make sure to add some spice to give it a kick.

Start at the very beginning

I am sure the thrill of taking up a challenge will help me in the future too.
Krishnamachari Srikkanth discusses his passion for cricket, ambition for engineering, and balancing both during his time at college.

In my third year, I played for the Ranji Trophy. In my fourth year, I played for India. I was on the verge of playing for India when I was in my third year and I had started thinking about engineering. I knew that if I did not have to play cricket, I could have a career in any field for the next 15 years. This is the reason I had not been asking my parents to provide for my future. I had been asking for my daily expenses. After all, I was still young and didn’t have any sense of responsibility.

I had always been a practical person. I knew that if I wanted to pursue a career in engineering, I had to do something that would help me when I was not taking a break and not playing cricket. The most important thing I gave up was my reputation. My father was my mentor, and I always admired him. He was a man who had never played against anyone, and he thought that if I played against someone, I would lose my focus. He told me, “When I am playing for India, I am not playing against anyone. I am just playing against myself.”

Breaking barriers, virtually
A geography lesson comes alive, thanks to technology.

Mobile generation: Technologically evolving education system.

Technology in education is changing rapidly, and the way we learn and teach is transforming. With the advent of smartphones and other mobile devices, students have access to a wealth of information at their fingertips. This has led to the development of new educational models, such as online learning and e-learning, which are proving to be more effective than traditional classroom settings.

In my opinion, the transformation of the education system is not just about the use of technology but also about the way we design and deliver the content. The emphasis should be on creating content that is engaging, interactive, and relevant to the students.

To sum up, the role of technology in education is to make learning more accessible, efficient, and effective. By leveraging the power of technology, we can create a more personalized and meaningful learning experience for students.
Offbeat Art Curations

For those with a penchant for interpreting art and a fascination for history, the course offers a plethora of opportunities.

---

Eureka Prize

In 2017 the Institute of Art History in Sydney, in partnership with the TSB Training Academy, recently launched the Postgraduate Certificate in Education (International) for Indigenous teachers. An MoA was signed to introduce the PGCED in South Asia. The course starts in December 2017.

---

Not a NEET move

The mandatory implementation of NEET sparked off protests across the country. Students voiced their disapproval.

---

From trash to cash

Students from Sandip Polytechnic have come up with a effective way to get거리 participation to participate in waste disposal.

---
